DETAILED ACTION

Allowable Subject Matter

1. Claims 1-15 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art does not disclose the method of claim 1, in particular the limitation of etching only partially through the insulating layer from the first surface to form an opening which has a bottom surface in the insulating layer spaced above the second surface, with a transparent electrode on a sidewall and bottom of the opening and a reflective electrode on part of the insulating layer. For instance, U.S. Patent No. 6,819,379 to *Kubo* discloses [see Fig. 23] such a partial etching and reflective electrode, but the transparent electrode is below the insulating layer, rather than on the sidewall and bottom of the opening; U.S. Patent No. 6,919,945 to *Ha* may disclose [see Fig. 7] such a partially etched opening with transparent electrode on its sidewall and bottom, but the reflective electrode is below the insulating layer rather than on part of the insulating layer. Claim 1 is therefore allowed, as are its dependent claims 2-8.

The prior art does not disclose the method of claim 9, in particular the additional limitation of forming at least one symmetric protruding element on the insulating layer located around the reflective electrode. U.S. Patent No. 6,864,945 to *Fujimori et al*, for instance, discloses such a symmetric protruding element [a spacer 10 between the substrates] but it is formed on the opposite substrate and then comes into contact with the insulating layer, rather than being formed on the insulating layer. Other types of

protrusions are known, but as held by the examiner in the office action of 9 March 2005, it would not be obvious to one of ordinary skill in the art at the time of the invention to incorporate them as recited on the insulating layer around the reflective electrode in the device of *Jisaki*. Claim 9 is therefore allowed, as are its dependent claims 10-15.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Andrew Schechter whose telephone number is (571) 272-2302. The examiner can normally be reached on Monday - Friday, 9:00 - 5:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Dave Nelms can be reached at (571) 272-1787. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
